

We want your opinions!

Montana Pediatrics, working with Northwestern University, is studying ways to improve access to mental health care for young people in Montana.

Who can participate?

- Montana youth (13 to 17 years old)
- Speak and read in English
- Have stable internet access
- Can share your email address (for compensation), phone (for study check-ins), parent/guardian phone (for emergency contact only)

What will you do?

- Complete a brief, online survey to determine eligibility
- Provide consent to participate
- Participate in an online, asynchronous focus group (post to a discussion group every 2-3 days, ~10-20 minutes, for 28 days)
- May be asked to participate in online follow-up interview
- Receive up to \$48 gift card for completion of an online focus group, + up to \$27 gift card if selected for an interview
